## **Catheter and Medical Supply Company, 180 Medical, Ranked in Top 10 Best Places to Work in Oklahoma**

OKLAHOMA CITY, OK--(Marketwire - June 2, 2009) - 180 Medical, one of America's fastest growing "Nationally Accredited" providers of sterile use [catheters](#), urologic and disposable medical supplies, announced today they have been ranked the 10th Best Place to Work in Oklahoma by the Best Companies Group for small to medium sized businesses.

"We are very honored to be ranked the 10th best place to work in Oklahoma," said Todd Brown, founder of 180 Medical. "The most rewarding part of this ranking is receiving such positive feedback from our employees. It's because of their survey results that we are a 'Best Place to Work.'"

The rankings of the 30 Best Places to Work in Oklahoma were announced by the Best Companies Group on May 14th at the National Cowboy and Western Heritage Museum and will be published inside the June issue of OKCBiz.

In order to determine the Best Places to Work in Oklahoma, Best Companies Group conducts a two-part company assessment to gather detailed data about each participating company. In part one, the employer completes a questionnaire and in part two, employees of the company complete an employee survey. The collected information is combined to produce a detailed set of data enabling analysts to determine the strengths and opportunities of participating companies. The workplaces are ranked based on this data and then the Employee Feedback Reports are returned to each participating company.

180 Medical carries a wide range of sterile use male and female catheters including [closed system catheters](#), female urinary catheters, [hydrophilic catheters](#) and pediatric catheters. The company was founded by and is an employer of persons with spinal cord injuries. As such, their ability to help customers transition from the hospital to daily life is unsurpassed in the industry.
